Testimonials:

I had been in a series of short term relationships and knew that I wanted something deeper. The PTI helped me experience being vulnerable in a safe environment. Allowing myself to be open has given me the depth of relationships I had been looking for.

Rex W, 42, Sydney

I did the PTI with my 15 year old daughter. I learnt how to trust her and let go of my need to control her every move. The improvement in our relationship was amazing. I recommend all parents do the PTI with their children.

Karen M, 45, Sydney
